Able, Gifted, Talented and Enrichment Courses

Spring/Summer 2021

Primary school years 2 - 6

This booklet has been redesigned to reflect significant changes that have been made. Please ensure that you familiarise yourself with the changes so that you can provide parents with all the necessary information.

Contents	Page(s)
1. Schedule of courses – a table of courses advertised for the Spring/Summer 2021	3 - 4
2. Introduction to the courses – what the courses aim to achieve Supervision stay information - Parents/carers should be made aware of these details prior to application	5
3. Further details – Parents/carers should be made aware of these details prior to application	6
4. Application procedure checklist – Parents should be made aware of and involved with the completion of this checklist	7
5. Covid Information – Further information on how we are operating at the moment	8
6. Course application form – a two-page form which can be photocopied by schools to give to parents (alternatively parents/schools can book online)	9 - 10
7. Course details – these can be photocopied and issued to parents/carers with the application form. Copies and all course information can also be found on our website	11 - 36
8. Directions – A map and sat nav postcode	37

Schedule of Courses

AGTE Spring/Summer 2021 courses for primary school years 2 – 6

Year	Course Title	Subject	Tutor(s)	Date (s)	Time	Max. pupils	Cost including VAT	AGAT or E	Page
2	NEW Mini Maths Challenge	Numeracy	Elizabeth Davis	Saturday 1 st May	9.30am – 2.30pm	15	£60	AGAT	11
2	'Mystical Eggstravaganza' Creative Writing	Literacy	Louise Lawrence	Friday 14 th May	9.30am – 2.30pm	15	£60	AGAT	12
2	Mini Maths Challenge	Numeracy	Hannah Crook	Saturday 15 th May	9.30am – 2.30pm	15	£60	AGAT	13
2	Write a Fantastic Sequel to your Favourite Book!	Literacy	Sue Roles	Thursday 10 th June	9.30am – 2.30pm	15	£60	AGAT	14
3	Braeside Newsdesk	Literacy	Brodie Collins	Friday 7 th May	9.30am – 3pm	15	£60	AGAT	15
3/4	Braeside Academy of Magic; English	Literacy	Brodie Collins	Tuesday 11 th May	9.30am – 3pm	15	£60	AGAT	16
3/4	Maths Mapping Challenge	Numeracy	Elizabeth Davis	Saturday 15 th May	9.30am – 3pm	15	£60	AGAT	17
3/4	Rocket Balloons, Bubbles, Drops and Helicopters	Science	Rob Cunningham	Saturday 22 nd May	9.30am – 3pm	15	£60	AGAT	18

5/6	Super Sleuths and Daring Detectives	Literacy	Elen Caldecott	Tuesday 4 th May OR Thursday 8 th July	9.30am – 3.30pm	15	£60	AGAT	28
5/6	'Take a closer look'; Microscopes	Science	Peter Sainsbury	Tuesday 18 th May	9.30am – 3.30pm	15	£60	AGAT	29
5/6	Write your own Adventure	Literacy	Elen Caldecott	Wednesday 19 th May	9.30am – 3.30pm	15	£60	AGAT	30
5/6	Rocket Scientists	Science	Adrian Dening	Saturday 12 th & Sunday 13 th June	9.30am – 3.30pm	15	£100	AGAT	31
5/6	Chemistry Day: Solids, Liquids and Gases	Science	Peter Sainsbury	Tuesday 15 th June	9.30am – 3.30pm	15	£60	AGAT	32
5/6	Graphic Novels	Literacy	Sue Roles	Tuesday 29 th June	9.30am – 3.30pm	15	£60	AGAT	33
5/6	The Mystery of Braeside Manor	Literacy	Elen Caldecott	Thursday 1 st July	9.30am – 3.30pm	15	£60	AGAT	34
5/6	Lego Mindstorms Robotics Challenge	Science	John Trickett	Monday 19 th July OR Tuesday 20 th July	9.30am – 4.30pm	15	£60	AGAT	35
6	Maths All Around	Numeracy	Hannah Crook	Saturday 22 nd May	9.30am – 3.30pm	15	£60	AGAT	36

Introduction to the courses

These courses follow on from successful courses run in previous years and offer further opportunities from May 2021 through until July 2021.

Many pupils are particularly able or talented in one or more areas, such as:

- Academic and intellectual
- Expressive and performing arts
- Social, leadership and organisation
- Visual, spatial, and mechanical
- Design and technology
- Sport and physical

The overall aim of the courses is to extend the opportunities for individual pupils to explore and develop areas of ability and talent.

Our purposes are to:

- Provide an opportunity for teachers to acknowledge pupils' potential, gifts, and talents, and nominate them to participate in exciting and stimulating challenges
- Extend the range of opportunities available to Years 2, 3, 4, 5 and 6 pupils, to meet others with similar interests, abilities and talent in order to work in a variety of ways to increase understanding, develop skills and explore challenges
- Provide an opportunity for teachers and other adults in the learning community to offer their knowledge and skills.
- Extend the range of learning activities available to pupils to **enrich** their education.

The courses focus on challenges for Years 2 to 6 pupils and offer a range of opportunities to work with adults from various professions and disciplines. It is our intention to extend the range of courses available in the future.

All courses in this programme will be held at Braeside Education Centre, Devizes, but some may involve visits off site in the surrounding area.

Supervision stay information

- On one day courses the tutor(s) will carry out the supervision of the pupils. Additional Braeside staff are available to assist if necessary.
- Any medication that is required by a pupil should be brought with them and the tutors should be notified of any special requirements.
- **Whilst parents/carers deliver and collect pupils to and from Braeside, it is not expected that they remain on site.**
Access to the house will only be available five minutes prior to the end of the course for parents collecting.

Further details

- The courses are offered to Years 2 - 6 pupils at schools across Wiltshire. Courses may be more widely offered, i.e. to Swindon schools, to ensure viability.
- Schools are invited to publicise the courses to appropriate pupils and allow them to apply to Braeside for a place. Parents and pupils may also select courses of interest, but the pupil's school **must** endorse all AGAT applications.
- Various Enrichment courses, designated E, are included within this booklet. Pupils do not have to be on the AGAT register to apply. If you (or their class teacher) think they would gain from the enrichment courses, we would be happy for them to apply.
- No pupil should be denied nomination through financial hardship. A limited number of assisted places are available. Please contact Braeside on 01380 722637, for further information regarding this matter.

Parents/carers will be responsible for getting pupils to and from the courses – unless the school makes alternative arrangements.

- In the case of over subscription, places will be allocated by:
 - The date the application is received at Braeside, i.e. on a **first come, first served basis**
 - Balancing the genders in the group
 - Achieving a spread of schools and the geographical areas they represent
 - Whether the pupil has a place on another course
 - Comments written by the teacher on the application form

Preference may be given to Year 6 pupils as Years 5 and 4 may be offered a place in the future. In cases where courses are highly oversubscribed, Braeside will endeavour to run extra courses so that pupils are not disappointed.

- School staff may attend by arrangement – indeed we would welcome any ideas that teachers and/or other professionals have on running or contributing to future courses.
- If a course place is booked, paid for, and allocated but the pupil does not attend (through illness etc.) a refund will **not** be given, unless a replacement is found for that place. (Insurance can be taken out for such circumstances – 'pupil trip insurance').

Braeside Education Centre is a trading name of Braeside House Ltd.

Application procedure checklist for schools

- Consult booklet for course details – dates, times, focus, organisers, and location.
- Select appropriate course(s).
- Consult with colleagues and nominate pupil(s) using guidance criteria – teachers should make an individual comment on the pupil's suitability for AGAT courses
- Enrichment courses, designated E, are included within this booklet. Pupils don't have to be on your AGAT register to apply. If you (or their class teacher) think they would gain from the enrichment courses, we would be happy for them to apply.
- Consult/inform parents/carers about the course details, cost, venue, transport arrangements. Please stress that places are **not guaranteed** as courses may be oversubscribed. Ensure parents/carers receive copies of application form and course details or are directed to our website to book.
- Parents/carers/schools can book by either;
 - **Completing our online application form on our website www.braeside-education.co.uk**
Website applicants will need to be given this booklets reference by their school.
Course places cannot be booked without this code.
This code replaces the teacher's endorsement at the bottom of paper applications. Schools should only give this code out to pupils who are eligible to apply.
 - Sending paper application forms to the following address:
AGTE Coordinator
Braeside Education Centre
Bath Road
Devizes
SN10 2AP
- **Online Applications**
Payment for courses can be made on our **website with a card payment** for online applications
Paper Applications
Card, BACS transfer or cash for paper applications.
Payments by cash - must be included with the application form.
Payments by Card / BACS transfer – If a child has been allocated a space, we will send parents/carers an email with details on how to pay.
They will then have 7 days to pay. (Please note if we do not receive contact within 7 days of confirmation being sent, we cannot guarantee their child's space)
We no longer accept payments by cheque.
- Parents/carers will be notified by an e-mail or telephone call if their child has been allocated a place.
- If any applicants have not heard whether a place has been allocated or not, they must contact Braeside to find out the outcome. (Sometimes emails do get lost.)
- Unsuccessful applicants will be refunded, but a reserve list will be kept in case those allocated a place drop out.
- It is suggested that schools keep a note of applications and pupils attending courses.
- Discuss course and follow-up work in school with appropriate pupils and staff.
All pupils are given a course summary sheet which notes areas covered in the course and suggested further areas of study. Course summaries can be sent to your school, on request.

Covid Information

As a reputable and trusted activity provider we would like to assure you that Braeside have put into place all necessary measures to ensure, as a centre, we are Covid Secure. All relevant policies, procedures and risk assessments have been implemented. The safety of all our customers and staff is paramount. If you do have any further questions in regard to this, please contact the centre.

We have successfully run our AGT&E Spring/Summer 2020 programme in July and August as well as our Autumn/Winter 20/21 programme in October, November and December, following our new procedures. We have received extremely positive feedback from parents, pupils, and tutors. We have worked closely with our tutors to adapt our courses to conform with all guidance. We have implemented a new classroom setup and cleaning regimes and are confident in our safe delivery of each session.

Class sizes will be a maximum of 15 pupils and 1 tutor, with a teaching assistant if required to allow for activities to take place in smaller numbers.

Parents/carers, tutors, staff, and children are not to attend Braeside if they have any symptoms of Covid-19, or are shielding, along with government guidelines. Braeside need to be informed as soon as possible if you are unable to attend.

At Braeside we aim to promote and implement 2 metre distancing as much as possible and children will be guided throughout.

Staff, tutors, and children will not be required to wear PPE (Personal Protective Equipment), unless individuals choose personally to do so. Exceptions to this are for first aid and close contact scenarios for which we have the appropriate PPE, including masks, visors, and gloves that staff have been trained to use if required.

Braeside staff are all encouraged to undertake weekly Asymptomatic testing provided inhouse and must follow government guidelines if a positive test is returned.

Pupils will be asked to bring and use all their own basic equipment which will be emailed through to parents in advance of the course. Any equipment given from the tutor or the centre will be cleaned and sanitised before and after use. This will not be shared throughout the course.

Full drop off/collection information will be sent through to parents in advance of each course.

Our Covid Cancellation Policy

If Braeside Ltd cancel your course;

We will endeavour to re-schedule any course **we decide** to cancel due to Covid 19 within the same school year.

If an alternative date cannot be offered we will issue a full refund.

If you cancel your place on a course;

We will endeavour to re-schedule any individual who cancels onto another appropriate course. If we deem the cancellation to be in line with PHE's recommendations at the time relating to self-isolation we will issue a full refund.

Where an appropriate alternative cannot be agreed our normal cancellation policy will apply.

Course application form

- page one of two

Please only use this form if you cannot book online via our website.

Please ensure you have read the course details sheet from the school or our website, before completing this application. Places are not automatically guaranteed but are allocated according to the criteria laid out in the AGTE booklet sent to schools and on the Braeside website. Confirmation notifications will be sent from Braeside by email for all successful applications.

Please do not assume a place has been allocated but contact Braeside if you do not receive a response within four weeks of the course date.

If a place is booked, allocated and paid for, but the pupil does not attend, (through sickness etc.) money will **not** be refunded. If Braeside cancels the course for any reason, a **full** refund will be made.

If applying for more than one course at a time, please use a separate application and payment for each course.

Name of course		Course dates		Time	
Forename		Surname		M / F	
Date of birth		Parent/Carer Name			
Address					
Tel. No. 1		Tel. No. 2		Two phone numbers must be provided.	
Email (Please use BLOCK CAPITALS)

Signed: _____ Date: _____

Please send application forms to: **AGTE Co-ordinator, Braeside Education Centre, Bath Road, Devizes, SN10 2AP**. Please note that places cannot be reserved by phone/email, although enquiries can be made regarding availability. It is not expected parents/carers remain on site. Access to the house will only be available 5 minutes prior to the end of the course for collection.

Privacy Policy - What will Braeside Education Centre do with your data?

It's simple. We need the information that you share with us to enable us to run our exciting activities, programmes and courses with your child and to satisfy our legal responsibilities. We will keep the data safe for as long as your child is participating in our courses and in accordance with data retention rules. We promise that we will only share your information outside of Braeside Education Centre if you ask us to, the law requires us to do so, in order to comply with our policies so that your child can enjoy an activity safely that either we deliver, or an approved/contracted provider delivers, or it's in the public interest.

Don't worry - we will never sell your data or share it for any other reason. Braeside Education Centre is the data controller meaning that we are the organisation that manages and looks after your data.

This is a summary of the Privacy Policy. If you would like to find out more about how we use your information and your rights, please view the full Privacy Policy on our website. Visit – <http://www.braeside-education.co.uk/data-protection-notice.html>

Year 2 pupils – NEW Mini Maths Challenge

Date of course	Times	Venue	Cost	Max. places	Subject
Saturday 1 st May 2021	9.30am – 2.30pm	Braeside Education Centre	£60	15	Numeracy AGAT

Course details

Meet new friends, solve puzzles, investigate shapes as you've never seen them before, use equipment, play games to earn points as you use and develop your maths skills but are challenged to explore new things too.

An introduction to Braeside courses with a varied and engaging set of activities to undertake. The course aims to consolidate known mathematical skills, introduce new skills and develop new ways of thinking about maths.

Guidance criteria for identifying participants:

- Able mathematicians with an interest to explore the subject beyond basic calculations and develop wider thinking and problem solving skills
- The ability to work independently and communicate within the wider group
- The ability to work in unfamiliar conditions i.e. with other adults and children

Elizabeth Davis is a primary school teacher based in BANES. With fifteen years' experience of teaching across the primary age phase, she is also a Lead Practitioner for English and maths for a Multi Academy Trust supporting across 7 primary schools. She has particular experience with English and maths teaching that challenges and extends all children and particularly enjoys problem solving and open-ended tasks that allow children to broaden their experiences and apply their skills and promoting a love of reading.

As a result of attending the course you will have:

- Explored shape, space and measure concepts and the mathematical principles underlying them
- Developed communication skills with others, both interpersonally and through explaining your work
- Developed your mathematical knowledge
- Enjoyed yourself!

Students should bring:

- Pencils / Paper/ Pencil case
- Water bottles
- Clothes suitable for outdoor breaks

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 2 pupils – ‘Mystical Eggstravaganza’ Creative Writing

Date of course	Times	Venue	Cost	Max. places	Subject
Friday 14 th May 2021	9.30am – 2.30pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

Did you see that? Something beautiful is over there, glinting in the sunshine and almost hidden by the long grass! What is it and how did it get there?

Perhaps we should take a closer look... Wait; stand back! A dragon's egg, you say?

Let's think about what this mystical object really is, not to mention what might lie within its eye-catching shell. We will then work collaboratively to create a descriptive writing toolkit which, alongside sensory exploration, will be used for writing imaginatively jaw-dropping descriptions and poems about our amazing discovery.

Now for our dilemma:

What should we do with the egg?

Where should it be put for safekeeping?

How can it be transported?

Who will be in charge?

When will it hatch and *what* will our egg-dweller need?

It's time to focus upon the key elements of persuasion and decide what to do with our precious object. Who knows?

You could be leaving today's session with more than you bargained for!

Guidance criteria for identifying participants:

Be keen to:

- Develop descriptive and persuasive writing skills.

Enjoy;

- Communicating and collaborating with new people;
- Writing descriptively;
- Being creative;
- Writing with a specific purpose in mind.

Course Tutor

Louise Lawrence graduated from the University of the West of England in 2002, with a BA honours degree in Primary English. Her extensive work as a primary teacher in a range of settings has seen her teach gifted and talented pupils aged 4 to 11. Louise is an incredibly adaptable teacher, who is passionate about all aspects of teaching and learning and has branched out to fulfil the roles of Early Years Practitioner, one-to-one tutor, secondary language teacher and youth worker. In addition to this, she is a school governor and children's rugby coach.

Louise is a creative individual with a particular passion for language, especially in relation to children's literature. She loves nothing more than to immerse herself in a good book with her own children and thrives upon the enjoyment of developing children's reading and writing skills across a range of exciting genres.

As a result of attending the course you will have:

- Been immersed in the fantasy genre;
- Used sensory exploration to produce an imaginative description;
- Worked with new people;
- Used persuasive language;
- ENJOYED YOURSELF!

Students should bring:

- Pencils/pens/paper
- Water bottle
- Appropriate clothing for outdoor breaktimes

Lunch and refreshments are provided. School uniform is not required.

No mobile phones.

Year 2 pupils – Mini Maths Challenge

Date of course	Times	Venue	Cost	Max. places	Subject
Saturday 15 th May 2021	9.30am – 2.30pm	Braeside Education Centre	£60	15	Numeracy AGAT

Course details

Meet new friends, solve puzzles, use equipment, discuss and record your results as you use and develop your maths skills but are challenged to explore new things too.

A wonderful way to try out a day at Braeside Centre with an enjoyable selection of maths tasks to challenge and engage pupils. The course aims to consolidate known mathematical skills, introduce new skills and develop new ways of thinking about maths.

Guidance criteria for identifying participants:

- Able mathematicians with an interest to explore the subject beyond basic calculations
- The ability to work independently and communicate within the wider group
- The ability to work in unfamiliar conditions i.e. with other adults and children

Course tutor

Hannah Crook is a primary school teacher in Salisbury with a particular interest and enthusiasm for mathematics. She is keen for children broaden and apply their mathematical skills in a variety of situations where they are challenged and need to do some 'deep-sea' thinking. Hannah completed the MaST (Mathematics Specialist Teaching Programme) with the University of Winchester and she has a MA in Learning and Knowledge Technology from Bath Spa University.

As a result of attending the course you will have:

- Explored shape, space and measure concepts and the mathematical principles underlying them
- Developed communication skills with others, both interpersonally and through explaining your work
- Developed your mathematical knowledge
- Enjoyed yourself!

Students should bring:

- Pencils / Paper/ Pencil case
- Water bottles
- Clothes suitable for outdoor breaks

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 2 pupils – Write a Fantastic Sequel to your Favourite Book!

Date of course	Times	Venue	Cost	Max. places	Subject
Thursday 10 th June 2021	9.30am – 2.30pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

Imagine that the publishers of your favourite book have asked you to write a sequel! You can introduce a new character or a different setting and let your imagination take off. Thinking about how the writer of your favourite book has used language, sentences and character development, you can build an exciting new story.

If you can, please bring your book to the course and be ready to explain to a partner why you love the story.

As a result of coming on the course you will have:

- Discussed your ideas with another writer in the group
- Developed a character through role play (or watched others)
- Written an imaginative piece, and used stylistic features of your chosen book
- Shared your work with others and contributed suggestions on how changes could be made
- Designed a cover for the sequel

Guidance criteria for identifying participants:

- Pupils should enjoy writing for pleasure
- Pupils should have a natural flair for creative writing
- Pupils should be willing to discuss their thoughts and ideas with others

Course tutor

Sue Roles has over twenty years teaching experience in both primary and secondary phases. In addition, her role as Wiltshire English Adviser led her to work with many of the county's schools, particularly on writing and reading for pleasure. She loves working with children and young people and listening to their ideas and thoughts about what they are writing and reading.

Students should bring:

- A notebook or notepad and pen
- Crayons etc for a cover design
- Copy of their favourite book or story – if possible

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 3 pupils – Braeside Newsdesk

Date of Course	Times	Venue	Cost	Max. Places	Subject
Friday 7 th May 2021	9.30am – 3.00pm	Braeside Education Centre	£60	12	Literacy AGAT

Course details

It is here that your production, writing and reporting skills will be put to the test. In the Braeside Newsroom we will be preparing for the next broadcast. Breaking stories, weather reports, in-depth interviews, and features; they all build up to the moment we go live in the studio.

English skills are not all about writing narrative or poetry – much as we might enjoy that too. Language is part of life and using it in context, together with all the skills that we learn at school is where we put our talents to the test. Have you got what it takes to be a fast-paced reporter? Come and have some fun putting your ideas forward and trying out new skills.

Guidance criteria for identifying participants:

- Enthusiasm for writing in a variety of formats
- Ability to work well with language in various forms, specifically communicating well with others
- Confidence with the spoken word
- Ability to work under some element of time pressure!

Course tutor

Brodie Collins has several skills under his belt. Normally he would be found in the kitchen here at Braeside, as our residential chef, boasting several catering awards and qualifications. He studied and passed an A Level in Creative Writing from New College, Swindon. He has also been lucky enough to have had a short story published in a book of short stories. He has a passion for Creative Writing and teaching. His bubbly personality is a hit with the children and of the courses he has taught so far, the children always comment on the fact that they do not want to leave.

As a result of coming on the course you will have:

- Written reports in different styles
- Used information from a variety of sources and taken notes for a purpose
- Worked on taking notes and editing skills
- Communicated in a group as well as worked individually
- Worked in 'role' as a journalist

What you will take away with you:

- Fresh ways to approach writing tasks.
- Hopefully, been inspired to write even more.
- Learnt new skills of time management
- New knowledge of writing for a variety of purposes in everyday life

Pupils should bring:

- Paper / Pencil / Pen / Pencil case
- Water bottle
- Clothes and shoes suitable for outdoor breaks

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 3/4 pupils – Braeside Academy of Magic; English

Date of course	Times	Venue	Cost	Max. places	Subject
Tuesday 11 th May 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

As we develop your Magical Studies, we examine the academic side of the topic that is 'Magical Creatures'. (Please note that the modules of 'Care of Magical Creatures' and 'A Beginners' Guide to Healing; Dangerous Beasts' is not available to Level 2 Students.) In this Level 2 Introductory Course, we will explore relevant ancient texts and folklore whilst exploring our own creative writing ability and skills in using resource material for research purposes. This course is offered in combination with 'Cartography; Animals of Adventures' and will benefit those with a literary interest in Magical Creatures. There will be the opportunity to apply the skills developed in a practical case study challenge. If you have not previously been admitted to the B.A.o.M., you will be introduced to the correct etiquette and traditions of Magical Studies and the standards expected at the Academy. You will need good reading, research, writing skills and to be prepared to explore artistic representation. You should have an interest in literature, language, and traditional folklore to join these classes, but chiefly...this is a day for Magic and the comradeship that you will find among your fellow young witches and wizards!

Guidance criteria for identifying participants

- Pupils should be outgoing and confident
- Pupils should demonstrate ability in literacy and have a wider interest in traditional literature, creative expression, and magic!
- Students do need to understand they will be working with new people, in unfamiliar surroundings and within a role-play context – hopefully having fun!

Course tutor

Brodie Collins has several skills under his belt. Normally he would be found in the kitchen here at Braeside, as our residential chef, boasting several catering awards and qualifications. He studied and passed an A Level in Creative Writing from New College, Swindon. He has also been lucky enough to have had a short story published in a book of short stories. He has a passion for Creative Writing and teaching. His bubbly personality is a hit with the children and of the courses he has taught so far, the children always comment on the fact that they do not want to leave.

As a result of coming on the course you will have:

- Developed their ability to write for specific content with creativity and expression
- Explored elements of traditional texts, folklore, myth and legend as used in writing
- Developed a broader understanding of the role of archetypal references

Students should bring

- General study cloak (Winter uniform, black over-cloak if available)
- Comfortable study clothes/shoes for indoor and outdoor classes
- Water bottle
- Personal Journal -a book with positive energy/ respectably bound/ plain or lined

Lunch and refreshments are provided.

No mobile phones.

Whilst they may be taken to class, wand use is not permitted for pupils under 16 years old.

Year 3/4 pupils – Mapping Maths Challenge

Date of course	Times	Venue	Cost	Max. places	Subject
Saturday 15 th May 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Numeracy AGAT

Course details

Meet new friends, solve puzzles, use grid and map references, use equipment, discuss and create your own adventure island as you use and develop your maths skills but are challenged to explore new things too.

An engaging and practical day to apply mathematical skill and use it to solve open ended and individualised problems. The course aims to consolidate known mathematical skills, introduce new skills and develop new ways of thinking about maths.

Guidance criteria for identifying participants:

- Able mathematicians with an interest to explore the subject beyond basic calculations
- The ability to work independently and communicate within the wider group
- The ability to work in unfamiliar conditions i.e. with other adults and children

Elizabeth Davis is a primary school teacher based in BANES. With fifteen years' experience of teaching across the primary age phase, she is also a Lead Practitioner for English and maths for a Multi Academy Trust supporting across 7 primary schools. She has particular experience with English and maths teaching that challenges and extends all children and particularly enjoys problem solving and open-ended tasks that allow children to broaden their experiences and apply their skills and promoting a love of reading.

As a result of attending the course you will have:

- Explored space, direction and measure concepts and the mathematical principles underlying them
- Developed communication skills with others, both interpersonally and through explaining your work
- Developed your mathematical knowledge
- Enjoyed yourself!

Students should bring:

- Pencils / Paper/ Pencil case
- Water bottles
- Clothes suitable for outdoor working and breaks

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 3/4 pupils – Rocket Balloons, Bubbles, Drops and Helicopters

Date of course	Times	Venue	Cost	Max. places	Subject
Saturday 22 nd May 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Science AGAT

Course details

This thought provoking day will focus on “broadening children’s scientific view of the world around them” (*Science programme of study Sept 13*). This course will give children the rare opportunity to spend a whole day focused on working scientifically. It will support accelerated progress within the new programme of study for any child with a questioning mind. During the day course members will be given the opportunity to secure and master the skills that are the outcomes for early Key Stage Two. Children will be given the opportunity to explore, talk about, test and develop ideas about everyday phenomena. Course members will make and investigate rocket balloons, blow incredible bubbles and explore the life of a drop. Most importantly participants will be free to question and investigate the things that interest them; hopefully finding some surprises.

Guidance criteria for identifying participants

- Show an interest in the world
- Be able to think about, question and discuss alternatives for scientific theories
- Be able to work independently and in groups
- Be trusted to use resources sensibly
- You will not be required to read or write much – this course is for thinkers and doers!

Course tutor

Robert Cunningham graduated from the University of Plymouth with a BEd honours degree. He then worked as the president of the student union before becoming a primary school teacher. Having had experience in both KS1 and KS2, Rob is now a Deputy Head in a large outstanding primary teaching school. He leads science and technology and has responsibility for this area across the Multi Academy Trust. Rob has a strong belief in children thinking and learning for themselves and making decisions that are going to be beneficial to their future. He believes that learning is most powerful when the ideas have been child initiated and that science offers the opportunity for children to acquire and develop these skills.

As a result of coming on the course you will have:

- Enjoyed yourself, made some friends
- Asked and investigated a question of your choosing
- Developed questioning and investigative skills setting up practical enquiries focused on fair testing
- Made systematic and careful observations
- Drawn conclusions, made predictions and suggested improvements.

What you will take away with you

- New ideas and strategies to use in a real context
- A broader prospective of science and how this links to career opportunities
- Friends
- Certificate of attendance

Students should bring

- Pencil & pens / calculator / ruler
- Paper – squared if possible

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 3/4 pupils – Gravity and Gunpowder

Date of course	Times	Venue	Cost	Max. places	Subject
Friday 11 th June 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Science AGAT

Course details

Rocket science is always an extremely popular topic at Braeside, featuring an explosive mix of physics and fun! This special day course begins with an exploration of aerodynamics and Newton's Laws of Motion, followed by rocket design and the propellants used to launch them. To reinforce their learning, students will plan and build their own model rockets. Computer simulation will be used to check each rocket's stability in theory before launching for real later in the afternoon. The pyrotechnic rocket motors used are specifically designed for this course and remotely fired. They are both exciting and safe. The students do not handle any form of explosive at any time and safety is paramount.

Guidance criteria for identifying participants:

- Pupils should have an interest in physics and an enquiring mind.
- Pupils will need to be able to work confidently, both individually and in small groups.
- Pupils must be willing to generate ideas based on scientific data and transfer these ideas into a completed creative product.
- Pupils must want to share the academic and practical challenges of the course – and the fun!

Course tutor

Adrian Dening has over thirty years' experience in delivering science courses for Able, Gifted and Talented students. He offers a wide range of topics exploring electronics, ICT, space science and even spying! He is a keen Amateur Radio enthusiast and astronomer. Adrian is an Approved Driving Instructor and member of the Chartered Institute of Personnel and Development. His G&T courses are challenging, with a balance between theory at a high academic level and fun practical exercises to consolidate what has been learnt. All courses include the assessment of written work and note-taking, providing the basis of feedback to parents. The courses involve a mix of individual and group activities and students are actively encouraged to explore different learning styles, take responsibility for their own time management and think "outside the box". A full portfolio of Adrian's courses is available at <http://www.AdrianDening.com>

As a result of attending the course you will have:

- A greater understanding of space exploration and the technologies that support it.
- Worked successfully on an individual project.
- Been responsible for a practical project at all its stages from initial design to final testing.
- Enjoyed new challenges and shared your knowledge with new like-minded friends.

Students will not be required to bring any specific materials with them as all necessary resources will be provided.

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 3/4 pupils – Science of Scalextric

Date of course	Times	Venue	Cost	Max. places	Subject
Tuesday 22 nd June 2021	10.00am – 4.00pm	Braeside Education Centre	£60	15	Numeracy AGAT

Course details

Take up pole position for this action-packed and educational workshop, where you are going to have a great time playing with Scalextric, but at the same time exploring maths, physics and ICT.

A giant Scalextric layout provides the opportunity to learn first-hand about the role that the electronics play and, in the case of the newer Scalextric Digital format, how the cars and controllers form a miniature computer network.

But electronics alone cannot keep your car on the track – is it driving skill or pure physics? How do we make sure that the races are fair? Are you up for the challenge to take 1st place in the Braeside Grand Prix?

Guidance criteria for identifying participants:

- Pupils should have an interest in physics and an enquiring mind.
- Pupils will need to be able to work confidently, both individually and in small groups.
- Pupils must show the aptitude to translate theory into a practical application.
- Pupils must want to share the academic and practical challenges of the course – and the fun

Course tutor

Adrian Denning has over thirty years' experience in delivering science courses for Able, Gifted and Talented students. He offers a wide range of topics exploring electronics, ICT, space science and even spying! He is a keen Amateur Radio enthusiast and astronomer. Adrian is an Approved Driving Instructor and member of the Chartered Institute of Personnel and Development. His G&T courses are challenging, with a balance between theory at a high academic level and fun practical exercises to consolidate what has been learnt. All courses include the assessment of written work and note-taking, providing the basis of feedback to parents. The courses involve a mix of individual and group activities and students are actively encouraged to explore different learning styles, take responsibility for their own time management and think "outside the box". A full portfolio of Adrian's courses is available at <http://www.AdrianDenning.com>

As a result of attending the course you will have:

- A greater understanding of electronics.
- Worked successfully in a group with your peers.
- Enjoyed new challenges and shared your knowledge with new like-minded friends.

Students will not be required to bring any specific materials with them as all necessary resources will be provided.

Lunch & refreshments are provided.

School uniform is not required. No mobile phones.

Year 3/4 pupils – Art Meets Science; Magic Moths

Date of course	Times	Venue	Cost	Max. places	Subject
Tuesday 22 nd June 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Art & Science AGAT

Course details

A cross-curricular day course combining aspects of Art and Science in the creation of an individual project. Pupils will gain an appreciation of paper types, uses of different paint mediums and blending of complimentary colours, followed by the opportunity to practice some creative techniques. Using their newly-acquired knowledge, pupils will be able to create their own colourful moth design. In the second part of the course, learning about the discoveries of Sir Isaac Newton will add science to the moth creations. Pupils will use their moths to demonstrate the forces of gravity, making the moths appear to fly like magic.

Guidance criteria for identifying participants:

- Attendees should enjoy Art and Creativity
- Be open to new ideas and possibilities.

Course tutor

Tone Townsend has explored a passion for art and science since school days. For many years, she ran a successful pottery business after attaining a degree in industrial ceramics. More recently, Tone obtained her PGCE enabling her to specialise in the delivery of courses for Able, Gifted and Talented children. She provides a unique range of courses exploring links between art and technology, actively encouraging students to broaden their range of thinking.

As a result of attending the course you will have:

- Learnt about primary, secondary and tertiary colours
- Discovered different art media and paper types
- Experimented with forces and the effects of gravity
- Had loads of fun working with your classmates
- Experienced the "magic" of science

Students should bring:

- Pupils should bring protective clothing as we will be experimenting with different paints and processes - an apron or old clothes will be ideal.
- Water bottle

Lunch & refreshments are provided.

School uniform is not required.

No mobile phones.

Year 3/4 pupils – Spies and Secret Agents

Date of course	Times	Venue	Cost	Max. places	Subject
Wednesday 23 rd June 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Science AGAT

Course details

A popular day course featuring an exciting mix of radio, bugs and lots of fun!

The day begins with an exploration into the mysterious world of spy transmissions and encrypted messages. Students will become expert at understanding encryption techniques – the different ways of coding a message so that it can only be understood by the intended recipient.....or can it?

To reinforce their learning, students are recruited by MI99 and become special agents for the afternoon, taking part in a large practical spying mission and using their new-found skills to hunt down top secret electronic circuit boards that have been stolen from a government establishment.

Guidance criteria for identifying participants:

- Pupils should have an interest in physics and an enquiring mind.
- Pupils will need to be able to work confidently, both individually and in small groups.
- Pupils must show the aptitude to translate theory into a practical application.
- Pupils must want to share the academic and practical challenges of the course – and the fun!

Course tutor

The courses involve a mix of individual and group activities and students are actively encouraged to explore different learning styles, take responsibility for their own time management and think "outside the box". A full portfolio of Adrian's courses is available at <http://www.AdrianDenning.com>

As a result of attending the course you will have:

- A greater understanding of communications technology and cryptography.
- Worked successfully in a group with your peers, experiencing leadership and negotiation skills.
- Been responsible for accuracy in the use of radio communications and code-breaking.
- Enjoyed new challenges and shared your knowledge with new like-minded friends.

Students will not be required to bring any specific materials with them as all necessary resources will be provided.

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 3/4 pupils – Aviation Aces

Date of course	Times	Venue	Cost	Max. places	Subject
Thursday 24 th June 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Science AGAT

Course details

How have we progressed so quickly from the Wright Brothers' early creations to stealth bombers and Jumbo Jets?

This exciting workshop explores these developments and introduces students to the world of modern aviation. You even get to build your own glider!

Classroom sessions covering physics and the laws of aerodynamics are reinforced by practical sessions outdoors, flying a variety of model aeroplanes and helicopters. We will also be operating our own Air Traffic Control, monitoring flights by Radar and listening to the communications of aircraft entering UK airspace from the Continent and maybe even further afield.

Guidance criteria for identifying participants:

- Pupils should have an interest in physics and an enquiring mind.
- Pupils will need to be able to work confidently, both individually and in small groups.
- Pupils must be willing to generate ideas based on scientific data and transfer these ideas into a completed creative product.
- Pupils must want to share the academic and practical challenges of the course – and the fun!

Year 3/4 pupils – ‘Dream BIG!’ Creative Writing

Date of course	Times	Venue	Cost	Max. places	Subject
Friday 25 th June 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

Did you dream last night?

Can you remember what happened?

How did it make you feel?

The wonderful thing about dreams is that there are no rules. Yes, that's right - NO RULES! Literally anything can happen, be it funny, fascinating, mind-boggling or strange... The possibilities are truly endless.

Embark upon a journey to create your very own dream, where you will explore the fantasy genre and discover what makes a jaw-droppingly magical piece of descriptive writing. We will kickstart our journey by looking at examples of dreams in popular children's literature, using a collaborative approach to identify the best types of 'ingredients' for our own dreams. We will then write about our dreams and celebrate our achievements by sharing them with each other. You will also have the opportunity to use cross-curricular links with Design and Technology to create your very own dream jar to take home at the end of the session.

This is the perfect opportunity to let your imagination run wild!

Guidance criteria for identifying participants:

Be keen to:

- Develop imaginative writing skills.

Enjoy;

- Working with others;
- Communicating with new people;
- Exploring the use of descriptive language;
- Being creative;
- Combining writing skills with cross curricular links to create an amazing end product.

Course Tutor

Louise Lawrence graduated from the University of the West of England in 2002, with a BA honours degree in Primary English. Her extensive work as a primary teacher in a range of settings has seen her teach gifted and talented pupils aged 4 to 11. Louise is an incredibly adaptable teacher, who is passionate about all aspects of teaching and learning and has branched out to fulfil the roles of Early Years Practitioner, one-to-one tutor, secondary language teacher and youth worker. In addition to this, she is a school governor and children's rugby coach.

Louise is a creative individual with a particular passion for language, especially in relation to children's literature. She loves nothing more than to immerse herself in a good book with her own children and thrives upon the enjoyment of developing children's reading and writing skills across a range of exciting genres.

As a result of attending the course you will have:

- Explored the fantasy genre;
- Identified what makes an excellent piece of descriptive writing;
- Designed and written about your very own dream;
- Created a magical dream jar to take home;
- Worked with new people;
- HAD FUN!

Students should bring:

- pencils/pens/paper
- water bottle
- appropriate clothing for outdoor breaktimes

Lunch and refreshments are provided. School uniform is not required.

No mobile phones.

Year 4 pupils – Calculation Detectives

Date of course	Times	Venue	Cost	Max. places	Subject
Saturday 1 st May 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Numeracy AGAT

Course details

Fraud is suspected. Is there a case to answer? We are recruiting detectives who can solve this mystery. Are you ready for the challenge?

Pupils will experience a variety of contextual maths problems over the course of the day, with a focus on calculations and choice of operation. They will explore how to solve different mathematical problems looking at methods and strategies for doing this. The children will need to explain their problem-solving strategies and be able to identify and develop recording methods. All of this will build towards their final challenge as a 'Calculation Detective'. If you've got what it takes to join us, grab your notebook and join us for the day.

Guidance criteria for identifying participants:

- Pupils with calculation skills and an interest in applying these in context.
- An ability to work independently but also to share / discuss their work
- The ability to work in unfamiliar conditions i.e. with other adults and children in a contextual setting
- A love of mathematics

Course tutor

Hannah Crook is a primary school teacher in Salisbury with a particular interest and enthusiasm for mathematics. She is keen for children broaden and apply their mathematical skills in a variety of situations where they are challenged and need to do some 'deep-sea' thinking. Hannah completed the MaST (Mathematics Specialist Teaching Programme) with the University of Winchester and she has a MA in Learning and Knowledge Technology from Bath Spa University.

As a result of coming on the course you will have:

- Developed your reasoning skills for applied maths challenges
- Developed interpersonal skills and the ability to explain the mechanics of your work
- Developed your mathematical and logical approaches
- Enjoyed yourself!

Students should bring:

- Pencils and notepad
- Water bottle
- Clothes suitable for outdoor break

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 4 pupils – Write a Stunning Illustrated Story

Date of course	Times	Venue	Cost	Max. places	Subject
Thursday 20 th May 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

Write and illustrate a wonderful story, in a day! Let your imagination take over and immerse yourself in writing and drawing. Discuss, explore and try out different styles of writing; construct characters and perhaps role play with others so that dialogue is really believable.

Bring together your knowledge of story features to create a story to treasure!

Guidance criteria for identifying participants:

- Pupils should love writing and want to engage the reader
- Pupils should be able to discuss ideas and listen to others as they explain their thoughts and plans
- Pupils should enjoy creating a story with illustrations – children who come do not need to be artists!

Course tutor

Sue Roles has over twenty years teaching experience in both primary and secondary phases. In addition, her role as Wiltshire English Adviser led her to work with many of the county's schools, particularly on writing and reading for pleasure. She loves working with children and young people and listening to their ideas and thoughts about what they are writing and reading.

As a result of coming on the course you will have:

- Explored what makes a really great story through looking at a range of texts
- Discussed ideas; tried out dialogue/characters through role play with others
- Thought about the reader's needs and how to use structure, vocabulary and devices unique to the genre
- Use illustrations to reflect what is happening in the story

Students should bring:

- A notebook or notepad and pen
- Coloured pencils

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 4 pupils – Word Power; Thought into Poetry

Date of Course	Times	Venue	Cost	Max. places	Subject
Tuesday 25 th May 2021	9.30am – 3.00pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

Do you love the wonder of language; would you like to weave pictures and summon emotions with your word skills? Then come and join in a day of activities to develop word knowledge, phrase building and creative writing skills. We will explore clever tricks and fun tips. Develop your word power and conjure up mesmerizing, challenging, humorous or descriptive poems! You are the poet; this is your day...

Guidance criteria for identifying participants:

- Pupils should enjoy words; written and spoken.
- Pupils should demonstrate abilities in creative literacy and a willingness to develop their own skills.
- Pupils need to be prepared to communicate with others and discuss/ share their work..

Course tutor

Brodie Collins has several skills under his belt. Normally he would be found in the kitchen here at Braeside, as our residential chef, boasting several catering awards and qualifications. He studied and passed an A Level in Creative Writing from New College, Swindon. He has also been lucky enough to have had a short story published in a book of short stories. He has a passion for Creative Writing and teaching. His bubbly personality is a hit with the children and of the courses he has taught so far, the children always comment on the fact that they do not want to leave.

As a result of coming on the course you will have:

- Explored different opportunities and approaches for poetic writing
- Been introduced to a range of poetic structure
- Developed your expression and begun creative, written poetry
- Had fun exploring the spoken word!

What you will take away with you:

- Confidence with to explore poetry writing
- An understanding of the variety of forms that poetry can take
- An ability to view the world with a 'poet's eye'

Students should bring:

- Pens/Pencils (pencil case)
- Notebook
- Water bottle
- Clothing suitable for outside breaks

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 5/6 pupils – Super Sleuths and Daring Detectives

Dates of courses	Times	Venue	Cost	Max. places	Subject
1. Tuesday 4 th May 2021 2. Thursday 8 th July	9.30am – 3.30pm	Braeside Education Centre	£60	15	Literacy AGAT

Please note: this course is being ran on 2 separate dates due to oversubscription.

Course details

This creative, practical day will inspire genre-writing in a setting that encourages imaginative thinking. Young writers will create their own super sleuths to investigate the clues, mysteries, and red herrings that the writers will have conjured. Together we will explore the qualities their character will need, and the tropes and devices required to write a satisfying whodunit.

Guidance criteria for identifying participants:

- Pupils should be able to sustain their focus on writing.
- Pupils should enjoy using their imagination.
- Pupils should have an interest in writing for fun.

Course tutor

Elen Caldecott has written for children for over a decade, including many detective stories. Her series The March Road Mysteries sees a gang of child detective work together to foil the nefarious activities in their neighbourhood. She is an Associate Lecturer in Creative Writing at Bath Spa University. As well as writing, she enjoys walking her dog along the South West's beaches.

As a result of attending the course you will have:

- Had an opportunity to write and edit a piece of work
- Shared that piece with an audience of peers
- Practised character creation
- Understood some of the conventions of detective fiction
- Used setting to inspire a story
- Been given advice on your writing by an experienced author
- Had fun!

Students should bring:

- Pen/Pencil
- Notepad/Paper
- Water bottle

Lunch & refreshments are provided.

School uniform is not required.

No mobile phones.

Year 5/6 pupils – ‘Take a Closer Look’; Microscopes

Date of course	Times	Venue	Cost	Max. places	Subject
Tuesday 18 th May 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Science AGAT

Course details

Exploring our World through microscopes enables us to transform the everyday into the extra ordinary. The excitement of seeing a ...poppy seed turn into a distant planet... or pond water become a teeming biological soup... is captivating; stimulating our creativity as much as it expands our science. The course enables children to develop their experiences and thinking as scientists by using microscopes to develop their skills and understanding. Through the science of microscopy their view of the world will never be the same!

Guidance criteria for identifying participants

- Should have enquiring minds and a desire to explore.
- Should enjoy science and question their surroundings and experiences.
- Should be able to work independently, and in groups, developing their ideas.

Course tutor

Peter Sainsbury has taught both KS1 and KS2 in a variety of Middle and Primary schools. Throughout his thirty years in education, including two Deputy Headships and two Acting Headships, he has been able to pursue his interests in science and classroom practice. In 2012 he was delighted to receive the National Primary Teaching Award from the Institute of Physics (IOP). A Fellow of the Primary Science Teaching College, Peter has expanded his science outreach nationally and is currently working at Winterbourne Earls C of E Primary School, Salisbury and for the College. As an elected member of the Royal Microscopical Society (RMS) he has developed this course to share his enthusiasm for microscopes and help children discover the wonders that they bring.

As a result of coming on the course you will have:

- Have been entrusted with a wonderful scientific instrument (and probably want to buy your own!)
- See things in a different way and want to find out even more.
- Be enthused by the world that exists beyond the reach of our naked eye.

You will also:

- Understand the impact of microscopy, how microscopes work and know about some of the significant scientists who have developed this field.
- Be trained in the use of microscopes and, if you meet the criteria, receive a certificate (based upon the work of the RMS).

Students should bring:

Students will not be required to bring any specific materials or resources with them, although basic pencil case equipment may be helpful.

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 5/6 pupils – Write Your Own Adventure

Date of course	Times	Venue	Cost	Max. places	Subject
Wednesday 19 th May 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

This creative, practical day will explore how real life can inspire the most fantastical of stories. Starting from situations and locations familiar to the young writers, we will add a dollop of magic and adventure. If an everyday wardrobe can lead to Narnia, where will the objects in their own lives take the students?

Guidance criteria for identifying participants:

- Pupils should be able to sustain their focus on writing.
- Pupils should enjoy using their imagination.
- Pupils should have an interest in writing for fun.

Course tutor

Elen Caldecott has written for children for over a decade. Her novel *Operation Eiffel Tower* was inspired by her own childhood experiences, plus a little wish-fulfilment. As well as writing drama, she writes detective fiction and fantasy fiction. She is an Associate Lecturer in Creative Writing at Bath Spa University. As well as writing, she enjoys walking her dog along the South West's beaches.

As a result of coming on the course you will have:

- Practised fantasy writing: creating fantastical worlds
- Had an opportunity to write and edit a brand new piece of work
- Shared that piece with an audience of peers
- Practised life writing: observing and reflecting on their own environment
- Been given advice on their writing by an experienced author
- Had fun!

Further reading

There are many books that blend real life and fantasy. You may enjoy some of these:

- *Tom's Midnight Garden* by Philippa Pearce
- *Harry Potter and the Philosopher's Stone* by J.K. Rowling
- *The Many Worlds of Albie Bright* by Christopher Edge

Students should bring:

- A notebook or notepad and pen

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 5/6 pupils – Rocket Scientists

Dates of course	Times	Venue	Cost	Max. places	Subject
Saturday 12 th and Sunday 13 th June 2021	9.30am – 3.30pm	Braeside Education Centre	£100	15	Science AGAT

Course details

This exciting and unique course provides the opportunity to research the history of space travel and explore the design of vehicles that make it possible. The course opens with a study of physics and aerodynamics, including Newton's Three Laws of Motion. To reinforce their learning, students will work in pairs to build rockets that will be launched to test the scientific theories that have been covered (subject to suitable weather). Forget air and water powered rockets that can be bought in model shops – we will be using gunpowder as our fuel. The pyrotechnic rocket motors used are specifically designed for this course and remotely fired. They are both exciting and safe. The students do not handle any form of explosive at any time and safety is paramount.

Guidance criteria for identifying participants:

- Pupils should have an interest in physics and an enquiring mind.
- Pupils will need to be able to work confidently, both individually and in small groups.
- Pupils must be willing to generate ideas based on scientific data and transfer these ideas into a completed creative product.
- Pupils must want to share the academic and practical challenges of the course – and the fun!

Course tutor

Adrian Dening has over thirty years' experience in delivering science courses for Able, Gifted and Talented students. He offers a wide range of topics exploring electronics, ICT, space science and even spying! He is a keen Amateur Radio enthusiast and astronomer. Adrian is an Approved Driving Instructor and member of the Chartered Institute of Personnel and Development. His G and T courses are challenging, with a balance between theory at a high academic level and fun practical exercises to consolidate what has been learnt. All courses include the assessment of written work and note-taking, providing the basis of feedback to parents. The courses involve a mix of individual and group activities and students are actively encouraged to explore different learning styles, take responsibility for their own time management and think "outside the box". A full portfolio of Adrian's courses is available at www.AdrianDening.com

As a result of attending the course you will have:

- A greater understanding of space exploration and the technologies that support it.
- Worked successfully on a group project, experiencing leadership and negotiation skills.
- Been responsible for a practical project at all its stages from initial design to final testing.
- Enjoyed new challenges and shared your knowledge with new like-minded friends.

Students will not need to bring any materials/all necessary resources will be provided.

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 5/6 pupils – Chemistry Day: Solids, Liquids and Gases

Date of course	Times	Venue	Cost	Max. places	Subject
Tuesday 15 th June 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Science AGAT

Course details

Exploring the realms of chemistry helps us understand the materials that form the world we live in, their characteristics and properties, how substances react together and the different states of matter. All vital to our existence and survival, and, wonderfully exciting to investigate. The course enables children to develop their scientific experiences and understanding. As scientists, they will be engaged by hands on, practical, activities and develop their thinking by considering theories and models. Together, we shall *build solid foundations of knowledge, *let our imaginations flow and our enthusiasm bubble over !

Guidance criteria for identifying participants:

- Have enquiring minds and a desire to explore.
- Enjoy science and question their surroundings, experiences and theories.
- Be able to work sensibly, independently and in groups, developing their ideas.

Course tutor

Peter Sainsbury has taught both KS1 and KS2 in a variety of Middle and Primary schools. Throughout his thirty years in education, including two Deputy Headships and two Acting Headships, he has been able to pursue his interests in science, leadership and classroom practice. In 2012 he was delighted to receive the National Primary Teaching Award from the Institute of Physics (IOP). A Fellow of the Primary Science Teaching College, Peter has expanded his science outreach nationally and is currently working part time at Winterbourne Earls C of E Primary School, Salisbury and with the Primary Science Teaching Trust as Advisor for their Cluster Programme.

As a result of coming on the course you will have:

- Discover more about materials and their properties.
- Deepen your understanding of solids, liquids and gases (including changes of state).
- Be challenged by elements, atoms and molecules, thinking through how materials are constructed.

You will also:

- Discover the 'delights and mysteries' of gases by exploring carbon dioxide.
- Use a variety of everyday items to expand your understanding of chemistry.
- Apply your brain power as you grapple with scientific models to explain ideas and theories.

Students will not be required to bring any specific materials or resources with them, although basic pencil case equipment may be helpful. It is not advisable to wear your best clothes as we may be a bit messy.

**Lunch and refreshments are provided.
School uniform is not required. No mobile phones.**

Year 5/6 pupils – Graphic Novels

Date of course	Times	Venue	Cost	Max. places	Subject
Tuesday 29 th June 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

Graphic novels are a popular and entertaining form of literature which mix drawing and design with carefully crafted text into a structured whole. The mix of illustration and text supports the use of precise vocabulary and imaginative story structure. Pupils will get the chance to explore a range of graphic novels and design and produce their own short version of a well-known story or of an original creation of their own.

Guidance criteria for identifying participants:

- Pupils should enjoy writing for pleasure
- Pupils should be confident drawing and designing pictures
- Pupils should be willing to discuss their thoughts and ideas
- Pupils work freely, confidently, together, and independently

Course tutor

Sue Roles has over twenty years teaching experience in both primary and secondary phases. In addition, her role as Wiltshire English Adviser led her to work with many of the county's schools, particularly on writing and reading for pleasure. She loves working with children and young people and listening to their ideas and thoughts about what they are writing and reading.

As a result of coming on the course you will have:

- Produced your own graphic novel.
- Extended your knowledge of writing for specific purposes & audiences.
- A certificate of attendance.

What you will take away with you:

- Your finished graphic novel.
- An enthusiasm to widen your reading repertoire.

Students should bring:

- Writing equipment
- Drawing equipment

Lunch and refreshments are provided.
School uniform is not required.
No mobile phones.

Year 5/6 pupils – The Mystery of Braeside Manor

Date of course	Times	Venue	Cost	Max. places	Subject
Thursday 1 st July 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Literacy AGAT

Course details

This creative, practical day will explore sensory writing in a setting that encourages imaginative thinking. Young writers will use their skills of observation to create mystery and intrigue in their writing; they'll be introduced to techniques that can hook a reader from the very first line. In the atmospheric rooms of the Braeside Centre, we'll ask: who might have lived here in years gone by; what were their lives like...and what secrets might the house be hiding?

Guidance criteria for identifying participants:

- Pupils should be able to sustain their focus on writing.
- Pupils should enjoy using their imagination.
- Pupils should have an interest in writing for fun.

Course tutor

Elen Caldecott has written for children for over a decade. Her novel *The Mystery of Wickworth Manor* was partly inspired by her own visit to an educational centre as a child. As well as writing mysteries, she also writes detective fiction and fantasy fiction. She is an Associate Lecturer in Creative Writing at Bath Spa University. She enjoys reading and walking her dog along the South West's beaches.

As a result of coming on the course you will have:

- Practised writing suspense, mystery or thriller
- Used setting to inspire a story
- Had an opportunity to write and edit a brand new piece of work
- Shared that piece with an audience of peers
- Practised sensory writing: touch, sound, smell, as well as sight
- Been given advice on their writing by an experienced author
- Had fun!

Further reading

There are many books that use historical buildings as settings. You may enjoy some of these:

- *Tom's Midnight Garden* by Philippa Pearce
- *Letters From the Lighthouse* by Emma Carroll
- *Diver's Daughter* by Patrice Lawrence

Students should bring:

- A notebook or notepad and pen

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.

Year 5/6 pupils – Lego Mindstorms Robotics Challenge

Date of course	Times	Venue	Cost	Max. places	Subject
1. Monday 19 th July 2021 2. Tuesday 20 th July 2021	9.30am – 4.30pm	Braeside Education Centre	£60	15	Science AGAT

Please note: this course is being ran on 2 separate dates due to oversubscription.

Course details

Pupils will initially have a few icebreakers and then use Lego Mindstorms to build and program an autonomous robot to undertake a series of fun missions on a specially designed mat. Pupils will develop creative problem solving and team working skills as well as improving their knowledge of programming and control. Pupils will compete in teams against other teams.

Guidance criteria for identifying participants:

- Pupils should be willing to try out new things
- Pupils must be prepared to invent new ways to solve technical problems

Course tutor

John Trickett is Director of Wessex SETPOINT with extensive experience of working with schools on problem solving and team building activities. As the organiser of the Wessex Region *FIRST*[®] LEGO[®] League Robotics competition at HP Bristol he recruits 40 – 60 schools annually for this competition. School teams respond to the challenge with creativity and imagination. All Wessex SETPOINT activities require students to work in teams, be creative and solve problems. The emphasis is on experiential learning, that is, learning by doing, so learning is enjoyable and fun.

As a result of coming on the course you will have:

- Enjoyed yourself
- Learnt more about yourself as a designer, maker and technical problem solver
- Been surprised how good you are at solving problems
- Been able to adjust to an unfamiliar situation and work independently and within a team
- Gained knowledge of programming and computer control of autonomous robots

What you will take away with you:

- A sense of achievement
- A certificate of attendance
- Able to show you can solve technical problems creatively and work well in a team.

Students should bring:

- Pens, pencils and a notepad

Lunch and refreshments are provided.

School uniform not required.

No mobile phones.

Year 6 pupils – Maths All Around

Date of course	Times	Venue	Cost	Max. places	Subject
Saturday 22 nd May 2021	9.30am – 3.30pm	Braeside Education Centre	£60	15	Numeracy AGAT

Course details

Why do you learn maths? When do you need to use your mathematical skills outside the classroom? Pupils will experience a variety of learning activities to explore and extend their mathematical knowledge and understanding. They will take part in investigations applying their mathematics to the real-world. Pupils will need to explain their problem-solving skills and be able to record their methods.

Guidance criteria for identifying participants:

- Enjoyment of mathematics
- Good mathematicians
- An ability to work in groups and independently
- Show a curiosity of the world around them
- An ability to explain their problem-solving skills and record their methods

Course tutor

Hannah Crook is a primary school teacher in Salisbury with a particular interest and enthusiasm for mathematics. She is keen for children broaden and apply their mathematical skills in a variety of situations where they are challenged and need to do some 'deep-sea' thinking. Hannah completed the MaST (Mathematics Specialist Teaching Programme) with the University of Winchester and she has a MA in Learning and Knowledge Technology from Bath Spa University.

As a result of coming on the course you will have:

- Enjoyed yourself!
- Enriched your knowledge of mathematics
- Developed your problems solving skills
- Developed your ability to explain methods and strategies used

What you will take away with you:

- New knowledge and methods of thinking
- Certificate of attendance

Students should bring:

- Pen/pencil
- Notepad
- Water bottle

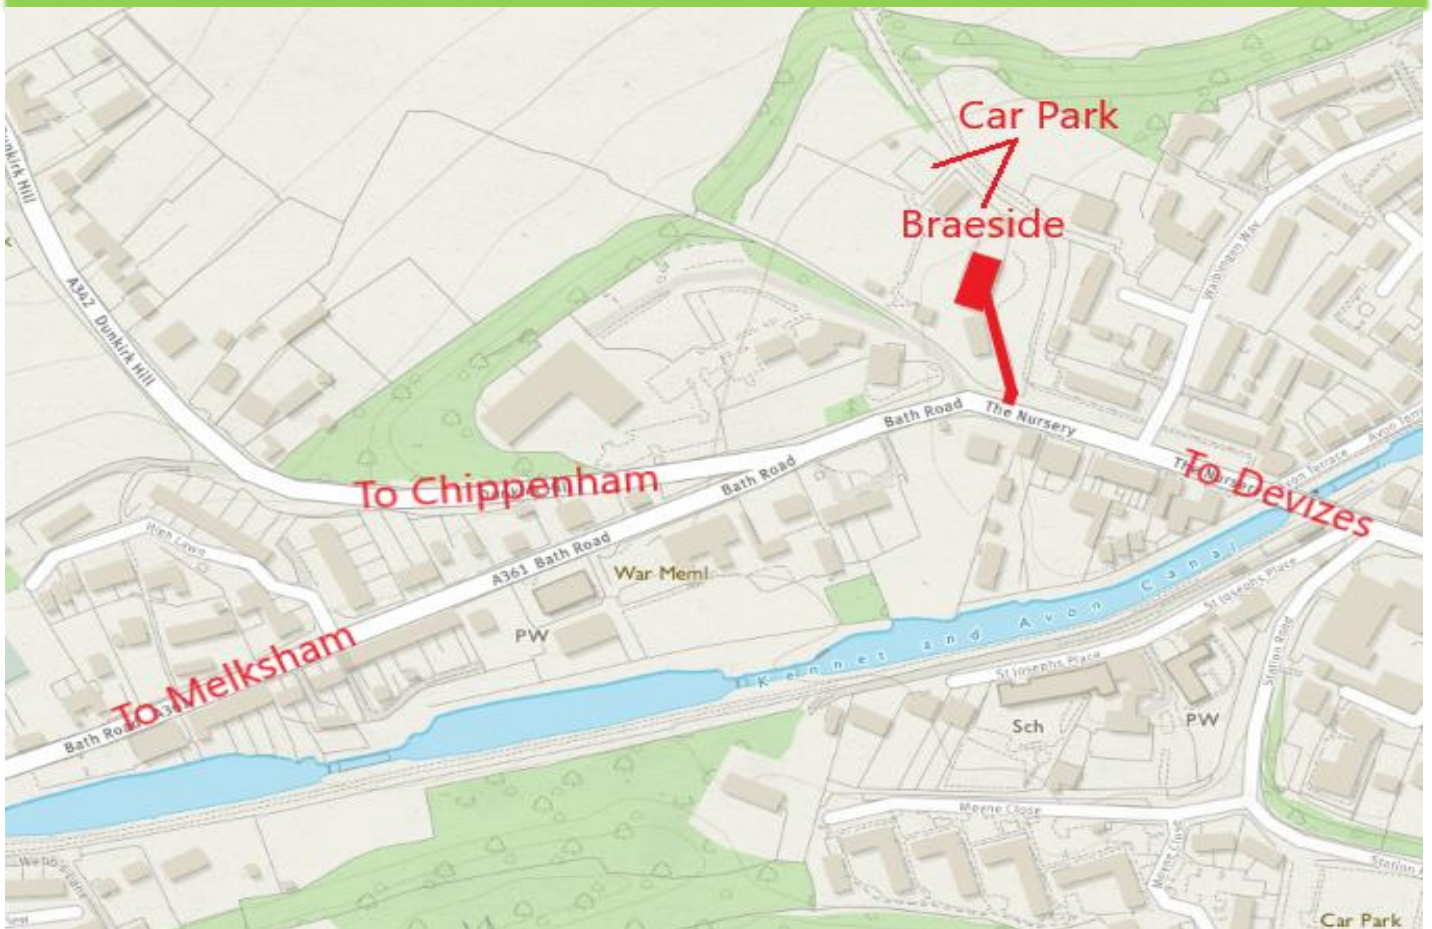

Lunch and refreshments are provided.

School uniform is not required.

No mobile phones.
