

ASSESSMENT OF RISK FOR

**BRAESIDE
EDUCATION
CENTRE**

Assessment of:
Pipe and Ball Challenge

Location: Braeside

Assessor (please print): Y R TABLEY

Date: Jan 2021

Review Date: Jan 2022

HAZARDS	WHO MIGHT BE HARMED?	IS THE RISK ADEQUATELY CONTROLLED?	WHAT FURTHER ACTION IS NECESSARY TO CONTROL THE RISK?
List Hazards here:	List specific groups of staff / other people that are risk, e.g. visitors, young people, expectant mothers etc:	List existing control measures / systems and state how individuals at risk are notified of the control measures / systems in place:	List the risks which are not adequately controlled and the action you will take where it is reasonably practicable to do more:
<ul style="list-style-type: none"> • Choking on wooden ball • Tripping over equipment or other students • Poor behaviour with equipment • Inexperienced staff • Overcrowding 	<ul style="list-style-type: none"> • Braeside Staff • School Staff • Children 	<ul style="list-style-type: none"> • Good briefing beforehand – no mouth contact with pipes (no blowing or sucking); no running around the area • Good classroom control • Good use of classroom space • Small working groups around a work table • To not leave equipment unsupervised on the floor • Do not allow groups to work in the hallway / on stairs. • If large group use 2 classrooms for space. • Staff must intervene if students are putting themselves at risk
